iOS 17

STUDENT REGISTRATION FORM

Please use CAPITAL/BLOCK letters only

Instructions: For the registration of more than 100 students, make photocopies before you start using this sheet, as you may need more sheets for the same. OR download this Form from www.silverzone.org. Leave a row blank, before starting a new class. Restart the 'Serial No.' from 001 for each new class. There is no need to repeat the class or Section/Divisoin for the rows having the same class and section. The students of classes 11th and 12th can opt only for either PCM or PCB. Students from PCM and PCB should be clubbed and written in the Column 11th/12th. The question paper will have separate sections for Physics, Chemistry, Biology and Mathematics subject.

School Code If you are unable to find the school code, leave the code blank.

Serial No.	Class	Sec.	Name of the Student (First Name, Middle Name, Last Name)
001	01	A	ARUN KUMAR SINGH

*Please follow the above **example** and fill the form below.*

iOS School Coordinator may register students online or send the Students detail in a XLS sheet instead of sending hard copy, through email for accuracy and to save time.
